## [ QUANTIFICATION ]

Calibrated accurately to quantify emissions from a safe distance in leak rate (e.g. gr/hr) and max concentration (e.g. ppm) values. In real time or post analysis.

## [ REAL TIME ALERTS ]

Real time indicator using alarms, visual signal alerts and colorization.

## [ SAFE & RUGGED ]

EyeCSite is available in a strong, portable, powerful and fully certified tablet or laptop

## [ LOGS & REPORTING ]

Easily pull reports of your inspections and review the history of events directly from the software.

## [ USER FRIENDLY ]

Automatic configuration in a user friendly and easy to use interface.

## [ WIRELESS ]

Easily connects via Wi-Fi to the OGI camera, without the need for any connecting cables
